WEATHERSEAL™

water-repellent sealer

Weatherseal works better and last much longer than conventional sealers because it chemically reacts with the substrate to form an insoluble, water-repellent barrier.

Weatherseal is backed by a 5-year warranty.

BENEFITS:

- Excellent water-repellency
- Water-based; eliminates safety concerns related to toxicity, flammability, and fumes
- Resists acid rain and other chemicals
- Resists mildew and moss
- Resists rust stains and efflorescence
- Easy cleanup with water
- Works as a chloride screen to protect against salt attack from de-icing salts, seawater, etc.
- No glossy finish, actually enhances the natural beauty
- Excellent moisture vapor transmission (breathability)
